8	Q&A	4:50 – 4:55	Andrea Michie
9	Vote of Thanks / Adjournment	4:55 – 5:00	Student & Charmaine

Presentation Minutes
Practical Skills for Employment Course
MS Teams
March 25, 2026 – 4:15 P.M. – 5:00 P.M.
Chairperson: Charmaine Saunders
PRESENT: Practical Skills for Employment Students
ABSENT: N/A

1. The presentation was called to order at (time) by Charmaine Saunders, Professor. Charmaine welcomed everyone. Andie Harding, assistant, presented Andrea's bio to the class.

Minutes to be Filled by Learners (Please delete this sentence)

2. **Overview of Andrea's Role & Organization:**

Andrea Michie, a Nurse Practitioner (NP) at Ontario Health at Home (HISH Program - High Intensity Support at Home), discussed her role and clinical authority. She explained that she follows a "Nursing Model," which is patient-focused rather than solely medical-focused. Furthermore, she confirmed that she possesses full diagnostic and prescribing authority, enabling her to order MRIs, CAT scans, and blood work, similar to a family doctor.

3. **How Meetings are Conducted at Andrea's Organization:**
   - MS Teams: Andrea noted that meetings are primarily conducted via MS Teams. She emphasized the "24-Hour Rule," requiring all agendas and previous minutes to be circulated at least 24 hours before a meeting to ensure the efficacy of time.

   - In-person meetings: These sessions range from formal legal records to informal meetings designed to build staff rapport and professional relationships.

4. **Types of Meetings:**

Andrea stated that meetings are often integrated into an online platform where documents are stored and accessed. She further explained that sessions include professional clinical updates as well as informal "get to know you" meetings focused on staff members' lives and families.

5. **Who Takes Minutes & Turnaround Time:**

Andrea identified the Administrative Assistant is the designated keeper of the final copies. She mentioned that meeting minutes are stored and categorized in a specific file in online platform

6. **What Andrea Looks for When Reviewing/Approving Minutes:**

Andrea explained that she looks for clear documentation of what was discussed, what was decided, and what actions are required.

7. **Q&A:**

Hopemarie Carimbocas asked if Nurse Practitioners write prescriptions. Andrea confirmed that she does write prescriptions and has the authority to assign treatments or MRIs and CAT scans.

Helen Dorsett inquired if the services provided are fully covered by OHIP. Andrea confirmed that the HISH program is a funded program, meaning all services are fully covered by OHIP. Megan Kingston asked what makes an office administrator successful in Andrea's organization. Andrea responded that the most important qualities are reliability, attention to detail, and personality.

8. **Vote of Thanks / Adjournment:**

The class thanked Andrea for her time and for providing her contact email (andreamichienp@gmail.com) for future questions. The meeting was adjourned at 4:57 P.M.
